

NUA Tuition Fee Status Assessment Process

Your tuition fee status will be officially assessed through the NUA Admissions Portal from April 2023 if you have firmly accepted a conditional or unconditional offer from NUA. Through the Portal you will be asked a number of questions about your nationality and residence which will enable us to assess your fee status.

There are two fee statuses - Home and Overseas. The 2023/24 fee rates are as follows:

Fee Status	Course	Fee
Home	Undergraduate degree (full-time)	£9,250
Home	Postgraduate fee (full-time)	£9,250
Home	Postgraduate fee (part-time)	£5,780
Home	MArch Architecture (full-time)	£9,250
Home	MArch Architecture (part-time)	£6,167
Overseas	Undergraduate degree (full-time)	£18,000
Overseas	Postgraduate fee (full-time)	£18,000
Overseas	MArch Architecture (full-time)	£18,000

Your fee status depends on whether you meet certain criteria, provided in regulations and guidance published by the English government. You can view this guidance by looking under 'Higher Education' on the UKCISA website:

If you are a British citizen who will be living in the UK on the 1st September 2023, and you have lived in the UK for 3 years before the 1st September 2023, it is likely you will be assessed as Home fee status.

As the UK has now formally left the EU, new entrants from the EU, EEA and Switzerland without settled status will likely be assessed as Overseas fee status.

There are additional Home categories in the UKCISA guidance referenced above but if you don't fit into any of these categories you will be assessed as Overseas fee status.

If you are unsure of your fee status and would like us to assess your fee status before you accept an offer of a place at NUA, or if you have any other questions, please email enrolment@nua.ac.uk. Please include a copy of the picture page of your passport, and include details of where you have been living during the last 3 years. We will then get back in touch with an assessment of your fee status or if we need to ask you further questions.
